VOTING IN PERSON

To vote in person, attend the General Meeting at the time, date and place set out above.

VOTING BY PROXY

To vote by proxy, please complete and sign the enclosed Proxy Form and return by the time and in accordance with the instructions set out on the Proxy Form.

In accordance with section 249L of the Corporations Act, members are advised that:

- each member has a right to appoint a proxy;
- the proxy need not be a member of the Company; and
- a member who is entitled to cast 2 or more votes may appoint 2 proxies and may specify the proportion or number of votes each proxy is appointed to exercise.

New sections 250BB and 250BC of the Corporations Act came into effect on 1 August 2011 and apply to voting by proxy on or after that date. Shareholders and their proxies should be aware of these changes to the Corporations Act, as they will apply to this General Meeting. Broadly, the changes mean that:

- if proxy holders vote, they must cast all directed proxies as directed; and

- any directed proxies which are not voted will automatically default to the Chair, who must vote the proxies as directed.

Further details on these changes is set out below.

Proxy vote if appointment specifies way to vote

Section 250BB(1) of the Corporations Act provides that an appointment of a proxy may specify the way the proxy is to vote on a particular resolution and, **if it does:**

- the proxy need not vote on a show of hands, but if the proxy does so, the proxy must vote that way (i.e. as directed); and
- if the proxy has 2 or more appointments that specify different ways to vote on the resolution – the proxy must not vote on a show of hands; and
- if the proxy is the chair of the meeting at which the resolution is voted on – the proxy must vote on a poll, and must vote that way (i.e. as directed); and
- if the proxy is not the chair – the proxy need not vote on the poll, but if the proxy does so, the proxy must vote that way (i.e. as directed).

Transfer of non-chair proxy to chair in certain circumstances

Section 250BC of the Corporations Act provides that, if:

- an appointment of a proxy specifies the way the proxy is to vote on a particular resolution at a meeting of the Company's members; and
- the appointed proxy is not the chair of the meeting; and
- at the meeting, a poll is duly demanded on the resolution; and
- either of the following applies:
 - the proxy is not recorded as attending the meeting;
 - the proxy does not vote on the resolution,

the chair of the meeting is taken, before voting on the resolution closes, to have been appointed as the proxy for the purposes of voting on the resolution at the meeting.

DATED: 23 MARCH 2012

BY ORDER OF THE BOARD

ANGELO FRANCESCA
COMPANY SECRETARY

EXPLANATORY STATEMENT

This Explanatory Statement has been prepared to provide information which the Directors believe to be material to Shareholders in deciding whether or not to pass the Resolutions which are the subject of the business of the Meeting.

1. BACKGROUND

On 5 March 2012, the Company received a notice pursuant to Section 249D of the Corporations Act (**Section 249D Notice or Notice**) from Mr Andrew Tsang, a Director of the Company, who currently holds 22.83% of the shares in the capital of the Company.

At the time of printing this Notice of Meeting, Mr Tsang had not provided a statement setting out the reasons for his Notice, or his reasons to have Messrs Gregory Bromley and Kenneth Pettit removed as Directors of Mindax and to appoint Mr John Stacpoole as a Director of Mindax.

The following, therefore was prepared making some assumptions based on the time-line of events.

As announced to the ASX on 1 March 2012, the Company and Sumitomo Corporation (a company incorporated in Japan) (**Sumitomo**) have entered into a Heads of Agreement (**HoA**) pursuant to which the Company's wholly owned subsidiary, Yilgiron Pty Ltd would potentially form a strategic partnership with Sumitomo to fast track feasibility and development of the DSO component of Mindax's Mt Forrest Iron Project (**the Project**). It is proposed that Sumitomo will have the right to acquire up to a 70% interest in the Project by way of farm-in, spending up to AU\$115 million in stages (**the Transaction**).

In the view of the majority of the Board of Directors, the basis of the framework underpinning the Transaction was discussed by the Company's entire Board of Directors in 2011. The terms of the HoA were not supported by directors Messrs Chow and Tsang when the matter was considered by the Board. The Board resolution was passed by the majority of the Directors in accordance with the Company's Constitution.

It is the view of the majority of the Board of Directors that it is largely Mr Tsang's opposition to the Transaction that has caused Mr Tsang to issue the Section 249D Notice.

The Section 249D Notice requested that the Directors of the Company convene a general meeting to consider and vote on the resolutions as set out in this Notice of Meeting.

Accordingly, the Directors have called and arranged to hold the General Meeting convened by this Notice pursuant to the Section 249D Notice and in accordance with Section 249D of the Corporations Act.

Each of the resolutions set out in this Notice of Meeting has been proposed by Mr Andrew Tsang.

As mentioned above, Mr Tsang has not provided the Company with a statement in accordance with Section 249P of the Corporations Act, for inclusion in this Notice of Meeting.

2. RESOLUTIONS 1 AND 2 – REMOVAL OF DIRECTORS - MESSRS BROMLEY AND PETTIT

Resolutions 1 and 2 are put to Shareholders to consider the removal of Messrs Bromley and Pettit as Directors of the Company.

Pursuant to Section 203D of the Corporations Act, a public company **may** by resolution remove a director from office regardless of any provision in that company's constitution or any agreement between the director and the company.

In accordance with Section 203D(4) of the Corporations Act, Mr Greg Bromley has provided the statement contained in Schedule 1 for inclusion in this Notice of Meeting.

3. RESOLUTION 3 – APPOINTMENT OF MR JOHN DOUGLAS STACPOOLE AS A DIRECTOR

Resolution 3 is put to Shareholders to consider the appointment of Mr John Douglas Stacpoole as a director of the Company.

SCHEDULE 1 – STATEMENT FROM MR GREG BROMLEY

The sole requisitioner of the meeting at which shareholders will be asked to remove me from my position of Managing Director of Mindax, Mr Tsang, has provided shareholders with no reasons for his decision. This action challenges my integrity, my commercial judgment and my responsibility to all shareholders.

His decision to requisition a meeting followed on the Company's announcement to ASX on 1 March 2012 of signing of the Heads of Agreement for Sumitomo's proposed farm-in the Mt Forrest Project aimed at fast tracking DSO production. I must assume it was this deal that led to him to seek the removal of both myself and Mr Pettit as directors supporting this deal. I urge shareholders to read the company's announcement of 1 March 2012 concerning the Sumitomo transaction which is available on the Company's web site www.mindax.com.au.

I also assume that if we are removed as directors, Mr Tsang and his nominee to the Board have other plans for the future of the Company and the Mt Forrest Project, although Mr Tsang has not chosen to share those plans with all shareholders. This is not acceptable – Mr Tsang should explain what he intends to do when he attains control of the Board.

I hold 3% of the company which for me is very significant investment. I am concerned that the changes to the board that Mr Tsang has initiated are neither in the short or long term interest of the Company and may put at risk what is potentially a very elegant transaction with a very good and motivated partner of international status. Any consequential impact of this action on share price may adversely influence ongoing funding of the Company's activities.

I am concerned that the composition of the Board after these changes will be less well equipped technically and legally than it currently is to deal with the complexities of taking the project forward in the current West Australian infrastructure environment.

It is the longer-term implications that are of greater concern as any interruption to the processes now underway with Sumitomo (which are highlighted in the Company's announcement) could significantly imperil the momentum of the Project towards production and securing the critical mine to port connection. I believe that the relationship that we develop with Sumitomo will provide a unique competitive advantage to Mindax's production objectives.

I believe that the Sumitomo deal once consummated will prove to be of significant benefit to Mindax and its shareholders. The key advantages (once the farm-in has been fully completed) will be:

- a) an attractive price for a non-producing iron asset in the present market;
- b) fast tracking the future development of the DSO component of the Project through the critical feasibility phase;
- c) Mindax will not be required to contribute to the feasibility studies and its contribution to development costs will be 10% not 30%;
- d) provides Mindax with working capital to add value to its other projects including our significant uranium resource;
- e) substantially de-risks future magnetite concentrate product by securing 70% of funding of any future iron product development; and
- f) Shareholders' interest in the Company (and therefore its other assets) will not be diluted or confused by a Sumitomo equity position in Mindax

In simple terms, immediately before the Sumitomo deal was announced the market capitalisation of the company was \$25M. Sumitomo will spend up to nearly five times that base figure (\$116M) to secure an initial DSO product stream and cash flow and earn its 70% equity. That resets the current project value to \$164M and deems the Mindax equity to \$49M (70:30). Further, if the future business case exists for a magnetite product, Sumitomo has to meet 70% of the cost of the required capital, currently estimated at circa \$2 billion.

I founded Mindax in 2003. With the founding Board members we were able to raise the funds to list the Company a year later. Many of those early investors remain loyal to Mindax to this day.

Mindax since inception has raised funds totalling \$36M. A commendable 80% of this has been put into the ground as exploration costs, demonstrating an extremely low corporate overhead cost.

The prudent expenditure of these funds, thanks to the expertise of our team have produced two greenfield discoveries at JORC resource level, an enviable accomplishment for any exploration company. Mt Forrest has attracted some \$13M of the funds for 1.3 billion tonnes of JORC resource, a discovery cost of 1 cent per tonne in a period of only 2 years.

I am proud of that performance, of my technical team, of my Board, of their advice, of their support. I am very humbled by the support of those shareholders who have repeatedly funded the Company. While market support is important, the availability of working capital is critical particularly in these hard times. I see the Sumitomo deal as being the payback for that collective effort and faith.

My background is very much imbedded in the mining industry. My industrial experience spans 40 years. Graduating in Geology at the Royal Melbourne Institute of technology, I have had the pleasure of an "apprenticeship" with Australia's most successful exploration company, CRA (now RTZ) where I participated in a number of significant discoveries. I became Employee 13 of Normandy Mining once Australia's largest gold producer and a major world producer. I have practiced globally as a Consultant participating in further discovery and the development of mining operations. I am a Fellow of the Australasian Institute of Mining and Metallurgy, have Chartered Professional status, am a member of the Society of Economic Geologists.

I am the inaugural Chair of the Yilgarn Iron Producers Association that has played a significant role in the infrastructure developments now taking place in the Yilgarn area, critical to the future development of Mt Forrest.

My vision which is well known to my fellow Directors, is that Mindax become the holder of interests in mineral production off the back of home grown discovery. We are well on that track with Mt Forrest and with that demonstrated ability to get a project going, with another in the wings, the true value to shareholders will be realised. What alternative is being offered and what track record can be pointed to?
