MT FORREST PROJECT

Overview

The Company has continued to review development options for the Mt Forrest Iron Project.

The Company has not undertaken geological or other activity on the Mt Forrest tenements during the quarter.

The Company has regenerated a review of the gold bearing potential of these tenements. Historical gold results are being reviewed in order to formulate a programme to further assess the gold potential of the tenements.

MEEKATHARRA GOLD PROJECT

Overview

In conjunction with ongoing discussions with various parties, the Company developed an exploration programme, focussing on the gold prospectivity of the tenement with the programme anticipated to be implemented early in the next quarter. No geological or other activity has been undertaken on the tenement during the current quarter other than the planning required to kick off the initial exploration field and sampling programme.

TENURE

A total of 8 tenements covering more than 50 km² were held as at 30 September 2017. A list of the tenements and their locations are set out at Annexure "A".

CORPORATE

The Company has continued to discuss joint venture, farm in or outright sale/purchase of the mineral properties with various parties.

In addition the Company is reviewing opportunities to participate in projects in other mineral commodities across a number of diverse jurisdictions.

Capital Structure

The **current** issued capital of the Company is as follows:

Number Quoted	Class
667,424,008	Fully paid ordinary shares.

On 11 July 2017 shareholders approved a placement of shares to re-finance the Company.

The approval was among other things, granted subject to, the issue and allotment of the shares within three months of the date of shareholder approval (i.e. 10 October 2017).

As at 10 October 2017, \$400,000 of the total funding package has been received by the Company with the balance held up due to unforeseen circumstances at the source jurisdiction. Confirmation that the funds will still be provided has been received and discussions have

continued, with the parties providing the funding to determine when the balance of the funding package will be received.

As the original approval has lapsed, the Company will seek shareholder approval to re-fresh this approval, for the balance of the funding, at its forthcoming Annual General Meeting.

Once all funds have been received, the Company will be well positioned to commence active exploration programmes on the Company's existing tenements and to seek new opportunities.
