ACTIVITIES FOR QUARTER ENDING 31 DECEMBER 2017

Updates on:

- Mt Forrest Iron Project
- Meekatharra Gold Project
- Tenure and Tenements
- Corporate

MT FORREST PROJECT

Overview

The Company continues to review development options for the Mt Forrest Iron Project and has held discussions with parties to better understand the future of the project and investment potential. These discussions are currently ongoing.

No geological or other activity has been undertaken on the Mt Forrest tenements during the quarter.

The Company has regenerated a review of the gold bearing potential of these tenements and further work has been undertaken to better understand the geological signature of this area.

MEEKATHARRA GOLD PROJECT

Overview

The Company has developed an exploration programme, focussing on the gold prospectivity of the tenement. This exploration programme was not completed during the current quarter and consideration is now being given to the timing of this work. No geological activity has been undertaken on the tenement during the current quarter.

TENURE

A total of 8 tenements covering more than 50 km² were held as at 31 December 2017. A list of the tenements and their locations are detailed in Annexure "A".

CORPORATE

The Company continues to actively discuss opportunities relating to joint venture, farm in or outright sale/purchase of the mineral properties with various parties.

Capital Structure

The **current** issued capital of the Company is as follows:

Number Quoted	Class
667,424,008	Fully paid ordinary shares.

On 11 July 2017 shareholders approved a placement of shares to re-finance the Company.

The approval was granted subject to the issue and allotment of the shares within three months of the date of shareholder approval. As a result of the original approval lapsing, the Company sought shareholder approval to re-fresh the approval at the Company's Annual General Meeting. Placement funds have been held up at the source jurisdiction and contributed to the resolution being withdrawn from the Annual General Meeting.

The Company is now in discussions with the parties that were providing funding, plus additional parties, with respect to the immediate capital requirements of the Company. The Company is

confident that a funding solution can be achieved in order to provide sufficient new equity to allow the Company to commence active exploration.

Annexure "A"
