ACTIVITIES FOR QUARTER ENDED 30 JUNE 2024

- Soil sampling completed at Mr Lucky Gold Project (**Mt Lucky**) has defined coherent gold animalisation aligning with potential mineralised bedrock structures.
- Multiple gold anomalies of greater than 10ppb gold extending up to 1km long have been identified at Mt Lucky
- The Company refreshed the agreement with Mr. Huang Yueguang to assist in sourcing additional funds via capital raising and the introduction of development partners for the Mt Forrest Iron Project. Discussions with potential partners have are ongoing.

MID-WEST SHARED INFRASTRUCTURE PROJECT

The Company announced the successful completion of the phase two study for the Mid-West Shared Infrastructure Project (**MWSIP** or the **Project**) on the viability of developing infrastructure to allow miners in the Mid-West to transport magnetite ore to port and to be loaded onto a ship for export (**Study**) during the previous Quarter.

Following the encouraging Study results, the Company is continuing to explore potential pathways to advance the Project to its next phase and to unlock the untouched value of iron ore assets in the region.

For background, on 9 November 2022, Mindax entered into a binding Heads of Agreement (**HOA**) with Australian Gas Infrastructure Group of companies (**AGIG**) in a strategic collaboration to conduct comprehensive studies assessing the technical and commercial viability of the MWSIP. The technical Study work on the pipeline was developed by global engineering firm Verbrec in Perth, Western Australia.

MT LUCKY GOLD PROJECT (MDX 100%)

The Mt Lucky Gold Project (Mt Lucky), tenement E38/3336, lies within the Mt Margaret Mineral Field of the north-eastern Goldfields of Western Australia (Laverton Greenstone Belt), approximately 7km east of the Granny Smith gold mine (plant capacity 3.5 Mtpa) and 12km southeast of Laverton, refer to figure 1. The ground has widespread gold anomalism and artisanal-scale gold workings.

Additional soil sampling was completed during the March quarter aimed at following up the gold anomalism that was previously identified by drilling conducted in November 2023 (see ASX announcement 5th March 2024) and interpretations of that sampling were completed during the June quarter (see ASX announcement 11th June 2024).

Two target areas (see figure 1) were soil sampled, each with a sample grid of 100m x 50m, for a total of 1,189 samples being collected. The northern grid covered the 2023 drilling area, infilling between the drill lines to define the full extent of the gold anomalism and assist in locating the host shear zones for gold mineralisation so they can be effectively targeted by bed rock drilling. The southern grid focussed over an area that was interpreted to host potential gold structures and not previously been subject to any exploration.

In both target areas, sampling has defined coherent, 1km long and 200-500m wide gold anomalies of greater than 10ppb gold. These anomalies are consistent with the interpreted location of potential gold bearing bedrock structures, refer to figures 2 and 3. The gold anomalies in the northern grid area located directly along strike from the nearby historic Mt Lucky mine and Great Southern Mining's Mon Ami Gold Deposit, support the geological interpretation that the mineralised structures from these deposits potentially continue northward extending through the Mt Lucky project area.

These new anomalies are considered very prospective exploration targets in both areas. Further geological interpretation is ongoing, with preparation and planning for a follow up drill program.

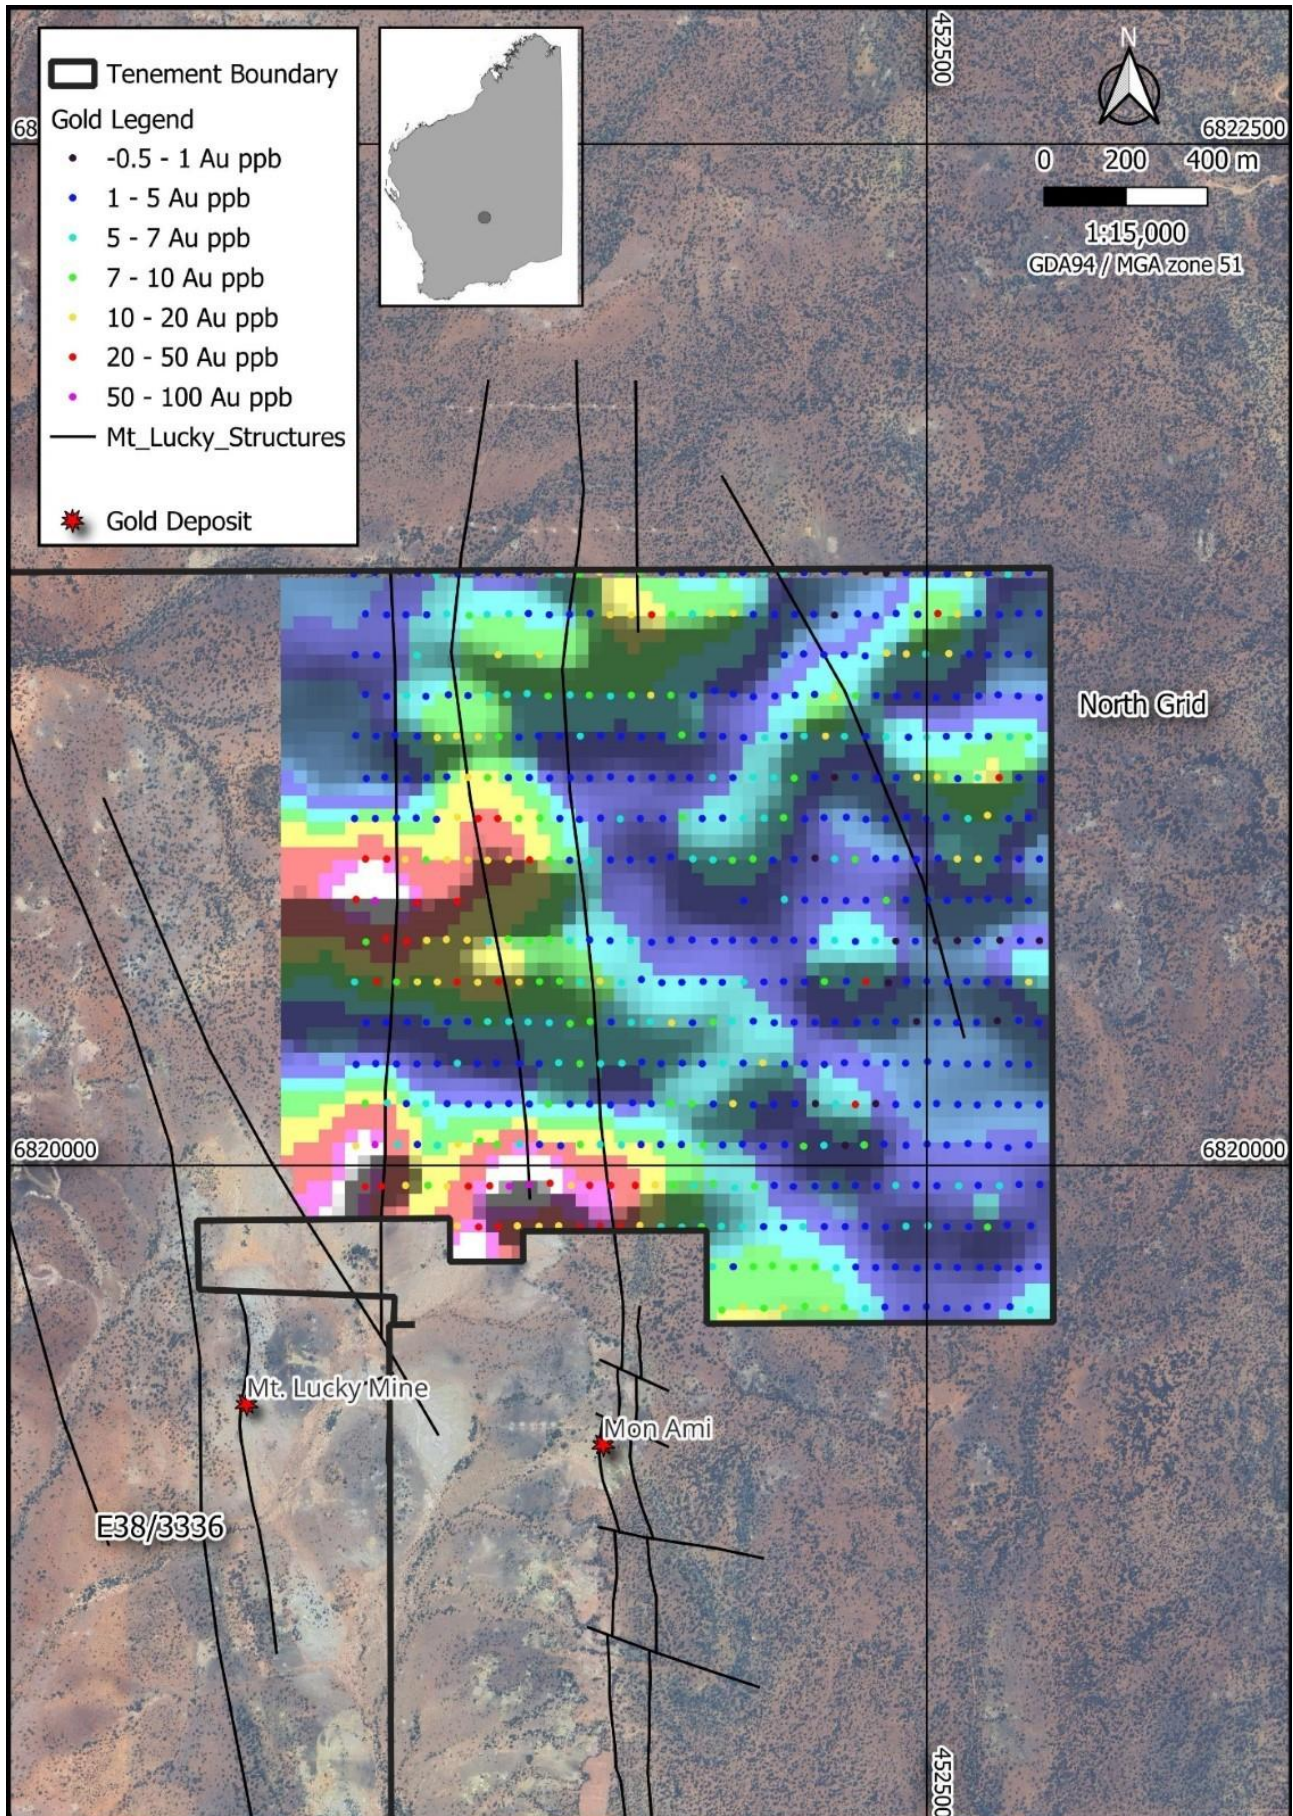

Figure 2. Soil sampling results for northern grid area with gridded gold results (ppb).

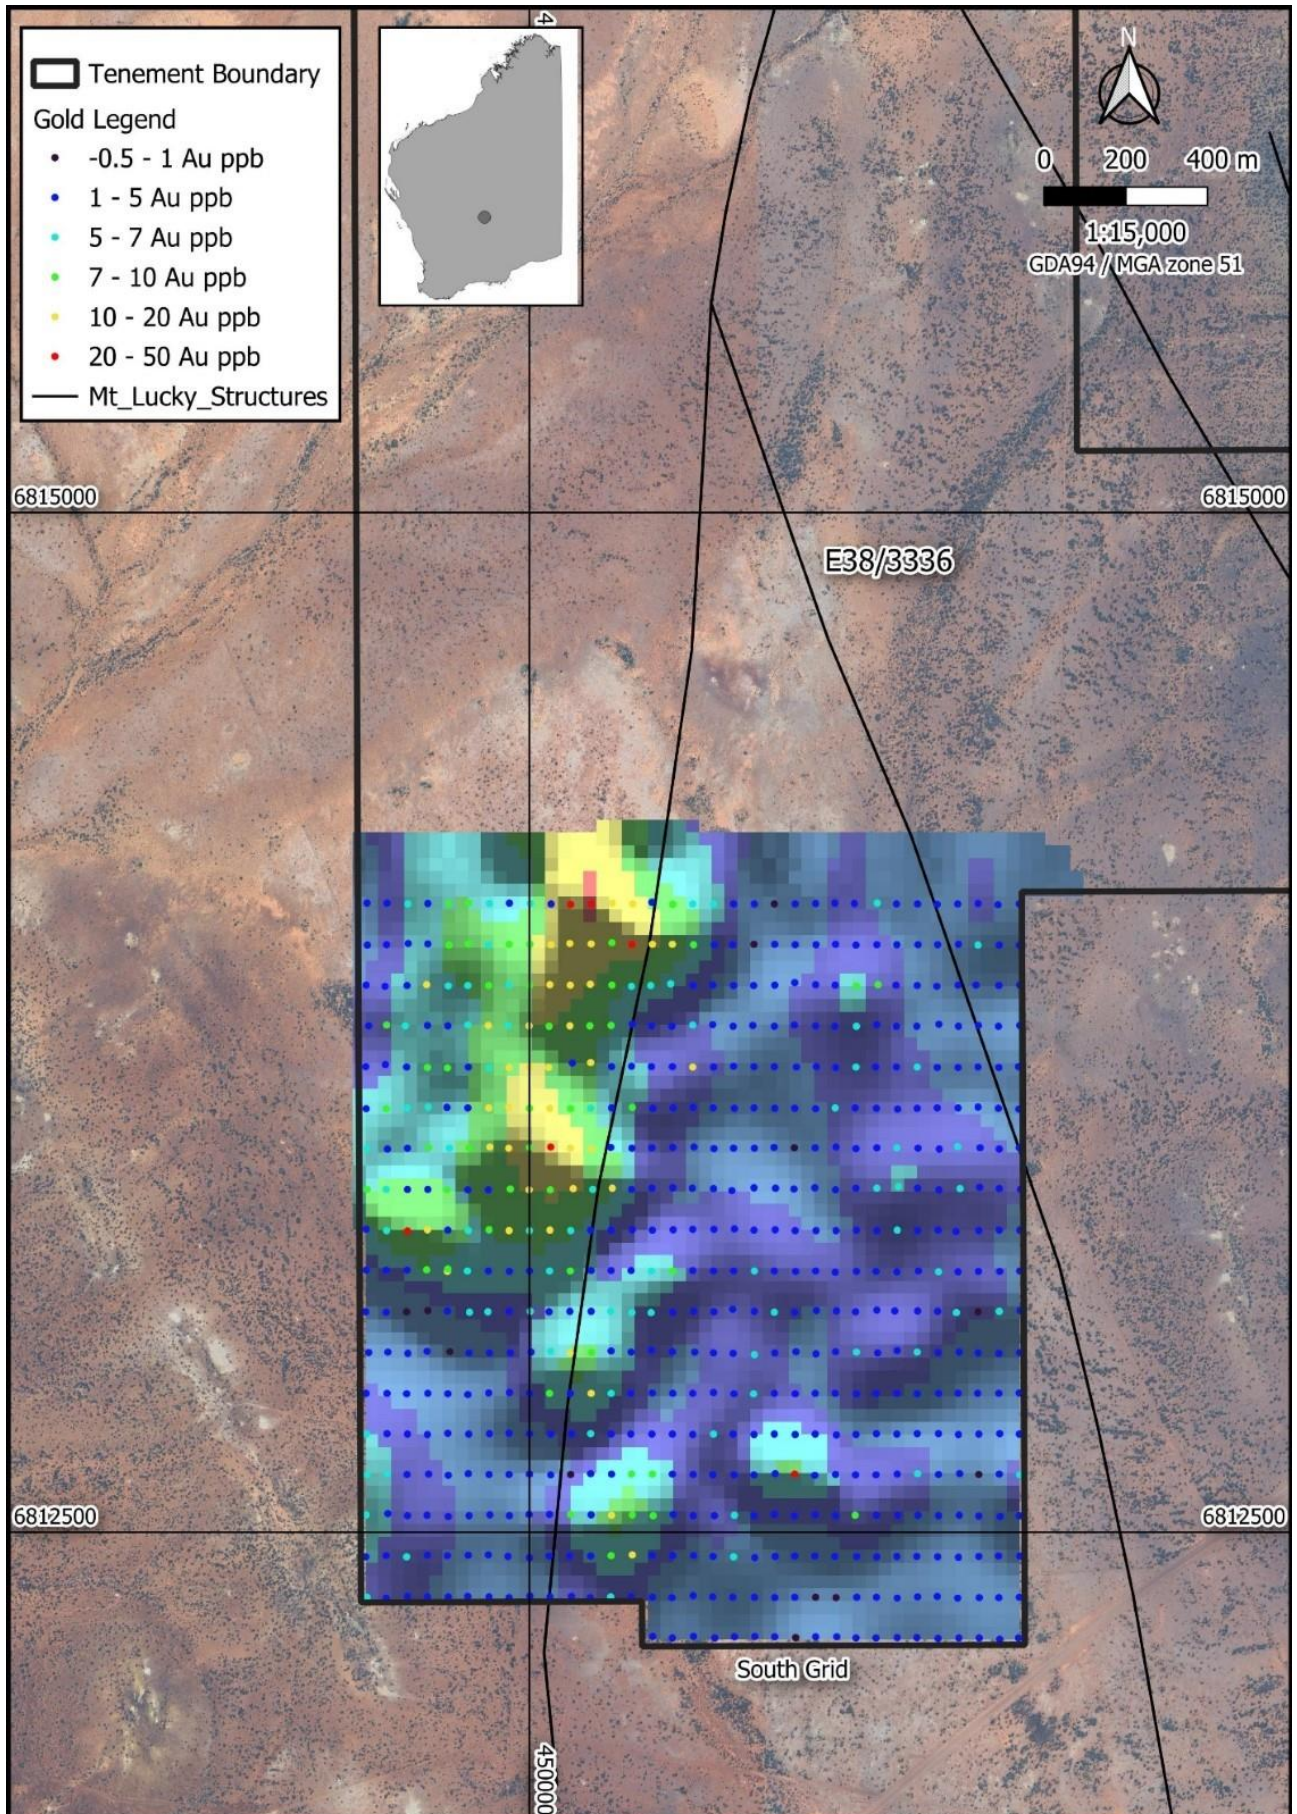

Figure 3. Soil sampling results for southern grid area with gridded gold results (ppb).

MEEKATHARRA GOLD PROJECT (MDX 100%)

The Meekatharra Gold Project (**Meekatharra North**), tenement E51/1705, lies within the Murchison Gold Field of Western Australia, approximately 40km north of Meekatharra and 2km south of the Andy Well Gold Mine (currently on care and maintenance).

No exploration work was undertaken on the project during the quarter and re-interpretation of existing datasets to identify new drill targets continues.

MT FORREST IRON PROJECT (MDX 65%)

The Mt Forrest Iron Project (**Project**) is operated via a joint venture between Mindax, Yilgiron Pty Ltd (**Yilgiron**), and Norton Gold Fields Pty Ltd (**Norton**) pursuant to a shareholders agreement dated 22 July 2021 (**SHA**).

Mindax, as Manager of the joint venture, is reviewing further development opportunities for Mt Forrest, including seeking alternative joint venture partners to assist with development. The Company refreshed its agreement with Mr. Huang Yueguang to assist in introducing development partners for the Mt Forrest Iron Project. Discussions with potential partners are ongoing.

On 5 June 2024, the Company announced it had signed a non-binding strategic alliance memorandum of understanding (**MoU**) with Xiamen ITG Mining Resources Co., Ltd (**Xiamen ITG Mining**), there were no material terms set out in the MoU. Following the signing ceremony, Mindax entered into further in-depth discussions with Xiamen ITG Mining. However, post-quarter end, after careful consideration, the Company has decided not to proceed with the cooperation with Xiamen ITG Mining and is seeking alternative partnerships more aligned with the interests of Mindax and its objectives for the Project.

Accordingly, Mindax is now progressing discussions with other potential partners with the full capacity to develop the Mt Forest Iron Project into production. These discussions will continue through the next quarter, and the Company will update the market once substantial progress is made.

Figure 1: Location map of soil sample locations whose results were interpreted during the quarter

TENURE

A total of 9 tenements covering more than 70 km² were held as at 30 June 2024. A list of the tenements and their locations are detailed in Annexure "A".

CORPORATE

The Company continues to review project acquisition opportunities, and to date, It has not proceeded to acquire any further projects. Reviews are ongoing and will continue during the coming quarters.

The Company has refreshed an agreement with Mr Huang Yueguang to assist with Mindax's capital-raising efforts and the identification of partners to join Mindax with Mt Forrest's development.

The Company will pay Mr Yueguang fees upon successful completion of the introduction of development partners and for the capital raising. The amount payable to Mr Yueguang will be commensurate with fees paid for transactions of a similar structure and value. The fees may be paid in cash or MDX shares (subject to any required regulatory approval) at the Company's election.

Strategy

The Company's strategy is to realise shareholder value by exploring its existing projects, potentially delivering new discoveries, continuing to pursue new opportunities, and amalgamating holdings through acquisition and corporate activity.

Capital Structure

The Company's issued capital is 2,048,783,780 fully paid ordinary shares, 10,000,000 unlisted options (exercise price \$0.07, expiring 25 October 2024), 25,000,000 unlisted options (exercise price \$0.07, expiring 16 November 2024), and 11,000,000 unlisted options (exercise prices \$0.07, expiring 30 November 2025).

ASX ADDITIONAL INFORMATION

ASX Listing Rule 5.3.1: Exploration and evaluation expenditure during the quarter was \$133,000 comprising payments associated with the HOA with AGIG, tenement compliance, geological consulting and drilling costs associated with the Meekatharra and Mt Lucky gold projects, and tenement compliance and geological consulting costs associated with the Mt Forrest iron project.

ASX Listing Rule 5.3.2: There were no mining production and development activities undertaken during the quarter.

ASX Listing Rule 5.3.5: During the quarter, the Company made cash payments totalling \$191,000 to related parties or their associates. This was the aggregate amount paid to the directors, including salary, directors' fees, consulting fees, expense reimbursements and superannuation.

Annexure “A”

Tenements held by the Company at the beginning and end of the Quarter

Tenement Number	Project	Locality	Status	Interest at beginning of quarter %	Acquired/ Disposed %	Interest at end of quarter %
M29/257	Bulga Downs	Mount Forrest - Bulga Downs	Granted	65.0	-	65.0
M29/258	Bulga Downs	Mount Forrest - Bulga Downs	Granted	65.0	-	65.0

3.10	Net cash from / (used in) financing activities	89	58

4.	Net increase / (decrease) in cash and cash equivalents for the period		
4.1	Cash and cash equivalents at beginning of period	932	4,628
4.2	Net cash from / (used in) operating activities (item 1.9 above)	(368)	(1,774)
4.3	Net cash from / (used in) investing activities (item 2.6 above)	(133)	(2,392)
4.4	Net cash from / (used in) financing activities (item 3.10 above)	89	58

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

Consolidated statement of cash flows		Current quarter \$A'000	Year to date (12 months) \$A'000
4.5	Effect of movement in exchange rates on cash held	-	-
4.6	Cash and cash equivalents at end of period	520	520

5.	Reconciliation of cash and cash equivalents at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts	Current quarter \$A'000	Previous quarter \$A'000
5.1	Bank balances	520	932
5.2	Call deposits	-	-
5.3	Bank overdrafts	-	-
5.4	Other (provide details)	-	-
5.5	Cash and cash equivalents at end of quarter (should equal item 4.6 above)	520	932

6.	Payments to related parties of the entity and their associates	Current quarter \$A'000
6.1	Aggregate amount of payments to related parties and their associates included in item 1	191
6.2	Aggregate amount of payments to related parties and their associates included in item 2	-

Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.

7.	Financing facilities <i>Note: the term "facility" includes all forms of financing arrangements available to the entity. Add notes as necessary for an understanding of the sources of finance available to the entity.</i>	Total facility amount at quarter end \$A'000	Amount drawn at quarter end \$A'000
7.1	Loan facilities	-	-
7.2	Credit standby arrangements	-	-
7.3	Other (please specify)	-	-
7.4	Total financing facilities	-	-
7.5	Unused financing facilities available at quarter end		-
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		
	N/A		

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

8. Estimated cash available for future operating activities	\$A'000
8.1 Net cash from / (used in) operating activities (item 1.9)	(368)
8.2 (Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(133)
8.3 Total relevant outgoings (item 8.1 + item 8.2)	(501)
8.4 Cash and cash equivalents at quarter end (item 4.6)	520
8.5 Unused finance facilities available at quarter end (item 7.5)	-
8.6 Total available funding (item 8.4 + item 8.5)	520
8.7 Estimated quarters of funding available (item 8.6 divided by item 8.3)	1.0
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: No, the significant expenditure associated with the MWSIP study is complete. The Company forecasts a decrease in the current level of cash used in operating activities following the final payment for the MWSIP study being conducted in conjunction with AGIG. The results of the MWSIP study will be assessed once finalised to determine ongoing funding requirements.	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: The Company understands it will be required to raise further funds. The Company has engaged an external party to assist with the process of identifying potential investors.	
8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
Answer: Yes, the Company expects to be able to continue its operations and to meet its business objectives on the basis that the Company will be able to raise further funds as required.	
<i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i>	

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
6. By the Company lodging this Appendix 5B, the CEO and CFO declare that the Appendix 5B for the relevant quarter:
 - presents a true and fair view, in all material respects, of the cashflows of the Company for the relevant quarter and is in accordance with relevant accounting standards;
 - the statement given above is founded on a sound system of risk management and internal compliance and control which implements the policies adopted by the Board; and
 - the Company's financial records have been properly maintained and the Company's risk management and internal compliance and control system is operating efficiently and effectively in all material respects.
