28 January 2026

ACTIVITIES REPORT FOR QUARTER ENDED 31 DECEMBER 2025

Mindax Limited (ASX: MDX) (**Mindax** or the **Company**) is pleased to provide its quarterly activities report for the period ended 31 December 2025 (**Quarter**).

HIGHLIGHTS

- Following the Annual General Meeting of the Company on 14 November 2025 at which shareholder approval for the issue of options to directors was granted, the Company announced the issue of 58 million options to directors and related parties or their nominees. Terms and conditions of the director options are disclosed in the ASX announcement dated 14 October 2025 "Notice of Annual General Meeting/ Proxy Form".
- In line with the Mindax's objectives to develop the Midwest into an iron ore processing hub, during this Quarter, the Company maintained engagement with potential stakeholders with the objective of finding collaborative pathways for the Mid-West Shared Infrastructure Project, to support miners in the Mid-West to transport magnetite ore from mine to port for export.
- During the quarter, pursuant to the mandate with Mr Huang Yueguang¹, the Company continued to raise funds through placements, providing working capital to maintain the momentum on project advancement. The Company expects to undertake additional placements over the upcoming quarter.

PROJECT UPDATES

MT FORREST IRON PROJECT (MDX 65%)

Located within the highly prospective Yilgarn province in the Mid-West region of Western Australia, the Project comprises a portfolio of 7 mining leases covering approximately 53km² and a granted water licence.

The Project is currently operated via a joint venture between Yilgiron Pty Ltd (**Yilgiron**), Mindax and Norton GoldFields Pty Ltd (**Norton**) pursuant to a shareholders' agreement dated 22 July 2021 (SHA).

During the quarter, the Company dispatched approximately four tonnes of representative ore samples from the high-grade magnetite domains MF1 and MF2 to CERI International Engineering Co., Ltd for metallurgical test work. The test work programme is being undertaken to assess processing characteristics and to prepare a metallurgical ("Met") test report to support future development studies.

Having secured, in the September 2025 quarter, the right to purchase the 35% of Yilgiron, currently held by Norton, which would take its stake in the Project to 100% (See ASX Announcement 23 July 2025 "Option Agreement Executed with Norton Goldfields"), Mindax is actively seeking suitable development partners for the Mt Forrest Iron Project. Discussions with potential partners are ongoing and the Company will update the market once substantial progress is achieved toward this vision of developing the Mid-West region of Western Australia into an iron ore production hub.

MID-WEST SHARED INFRASTRUCTURE PROJECT

The Company announced the successful completion of the phase two study for the Mid-West Shared Infrastructure Project (**MWSIP**) on the viability of developing infrastructure to allow miners in the Mid-West to transport magnetite ore to port and to be loaded onto a ship for export during the March quarter of 2024.

Following the encouraging Study results, the Company is continuing to explore potential pathways to advance the MWSIP to its next phase and to unlock the untouched value of iron ore assets in the region.

For background, on 9 November 2022, Mindax entered into a binding Heads of Agreement (**HOA**) with the Australian Gas Infrastructure Group of Companies (**AGIG**) in a strategic collaboration to conduct comprehensive studies assessing the technical and commercial viability of the MWSIP. The technical study work on the pipeline was developed by the global engineering firm Verbrec in Perth, Western Australia.

GOLD PROJECTS

The Mt Lucky Gold Project (**Mt Lucky**), tenement E38/3336 100% owned by Mindax, lies within the Mt Margaret Mineral Field of the north-eastern Goldfields of Western Australia (Laverton Greenstone Belt), approximately 7 km east of the Granny Smith gold mine (plant capacity 3.5 Mtpa) and 12 km southeast of Laverton. The ground has widespread gold anomalism and historical artisanal workings.

During the financial year to June 2025 the Company focused on advancing the results of previous drilling and soil sampling programmes. The drilling and soil sampling datasets were reviewed and re-interpreted, confirming the presence of highly prospective structural corridors. Further geological interpretation reinforced the consistency of these anomalies with potential gold-bearing bedrock structures.

During the September 2025 quarter, to further refine drill targeting, Mindax engaged a specialist geological services provider to conduct a comprehensive structural and mineralogical interpretation across the Mt Lucky tenement. The study utilised high-precision remote-sensing satellite data, combined with geological modelling and AI-assisted prospecting techniques, to interpret stratigraphy and delineate potential ore-controlling structures.

In late December 2025, the Company received the geological interpretation report prepared by the specialist geological services provider. The Company is currently reviewing the results of this study to support the preparation of a targeted drilling programme.

The Meekatharra Gold Project (**Meekatharra North**), tenement E51/1705 100% owned by Mindax, lies within the Murchison Gold Field of Western Australia, approximately 40km north of Meekatharra and 2km south of the Andy Well Gold Mine (currently on care and maintenance).

During the quarter, Mindax also engaged the same specialist geological services provider to undertake a comprehensive structural and mineralogical interpretation of the Meekatharra Gold Project. This work forms part of the Company's ongoing re-interpretation of existing datasets to identify new priority drill targets and advance the project toward future exploration activities.

INVESTMENTS

Doublebell Resource Wealth (Pty) Ltd

Mindax owns 4.1% of Double Bell Resource Wealth Limited (**DRW**) (See ASX Announcement *Share Placement and Investment* 25 March 2025) DRW owns 100% interest in exploration licences covering an area of the Norseman-Wiluna Greenstone Belt and is thus regarded as prospective for gold. The tenements also contain the Bromus kaolin-high purity quartz deposits (**Bromus Project**). The Bromus Project is located about 35 km south of Norseman and 165 km north of the port town of Esperance in Western Australia.

DRW plans to develop the Bromus Project. The Mindax directors continue to explore ways to assist the DRW Board in assessing potential future pathways toward the project's development by securing investment funding and a joint venture partner to take the project forward.

Cashmere Iron Limited (Cashmere)

Mindax has taken a strategic position in 5% of Cashmere Iron Limited (Cashmere). (See ASX Announcement dated 15 April 2025 *Investment in Cashmere iron Limited*)

Cashmere is an unlisted public exploration company that has been exploring the Cashmere Downs Iron Project (the Cashmere Project) since its inception in 2007. The Cashmere Project is located adjacent to the Company's existing Mt Forrest Iron Project and is situated within

granted Mining Leases in the Mid-West region of Western Australia, approximately 700km northeast of Perth.

The decision to invest in Cashmere followed a review by Mindax of various independent technical reports outlining the Cashmere Project's potential. As a neighbour in the Mid-West region, the investment is a significant move toward achieving the critical mass needed to support the Mid-West Shared Infrastructure Project and to become a major contributor to Western Australia's iron export industry.

TENURE

A total of ten tenements were held as of 31 December 2025, covering more than 70 km² of mining lease and exploration licence area. A list of the tenements and their locations are detailed in Schedule One.

CORPORATE

During the quarter the Company successfully raised a total of A\$0.3 million from the issue of 7,509,628 fully paid ordinary shares. The shares were issued pursuant to a mandate entered into with Mr Huang Yueguang. Pursuant to that mandate, the Company has received a further \$0.1 million and will issue further fully paid ordinary shares on completion of final compliance paperwork.

Also, during the December quarter the Company issued a total of 58 million options, including 54 million options with an exercise price of 8c and expiry date of 30 November 2026 to directors approved at a general meeting of the Company held 14 November 2025.

Strategy

The Company's strategy is to realise shareholder value by exploring its existing projects, potentially delivering new discoveries, continuing to pursue new opportunities, and amalgamating holdings through acquisition and corporate activity.

Capital Structure

The Company's issued capital is 2,356,182,496 fully paid ordinary shares and 97,000,000 unlisted options as of 31 December 2025.

<u>Number of Unlisted Options in Class</u>	<u>Exercise Price</u>	<u>Expiry Date</u>

8.8.1	Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
	Answer: No. Operating cash flows are expected to reduce in the near term and the Company will manage exploration activities in line with available funding and funding initiatives being progressed with potential investors.	
8.8.2	Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
	Answer: Yes. The Company is progressing discussions with existing and potential investors regarding a capital raising and evaluating alternative finding and strategic options. The Company considers these initiatives to be reasonably likely to be successful having regard to the market conditions.	

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes. The Company expects to be able to continue its operations and pursue its business objectives on the basis that exploration expenditure is discretionary in nature and can be managed in line with available funding, and funding initiatives currently being progressed.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
6. By the Company lodging this Appendix 5B, the CEO and CFO declare that the Appendix 5B for the relevant quarter:
 - presents a true and fair view, in all material respects, of the cashflows of the Company for the relevant quarter and is in accordance with relevant accounting standards;
 - the statement given above is founded on a sound system of risk management and internal compliance and control which implements the policies adopted by the Board; and
 - the Company's financial records have been properly maintained and the Company's risk management and internal compliance and control system is operating efficiently and effectively in all material respects.
